MEMORANDUM FOR: Colonel White, Deputy Director/Support

I had a telephone call yesterday from Congressman Dean Taylor of Troy, New York, who wished to intercede on behalf of Mr. whose curriculum vitae is given on the attached memorandum. He hoped that might be considered for some architectural advice in connection with the building. I explained to Congressman Taylor that we had already, some weeks ago, selected an architectural firm and while I did not know what consultants they an architectural firm and while I did not know what consultants they might wish to have, this matter was entirely in their hands. I might wish to have, this matter was entirely in their hands. I offered to tell him in confidence the name of the firm, but he said offered to tell him in confidence the name of the firm, but he said satisfied.

I suggest you mention this to Harrison and Abramovitz the next time either of them is down here.
